Freedom[®]

CORDLESS

Freedom[®]

The motor sits low in the nozzle and seems to scare dirt right out of your carpet. As the brushroll spins, it shakes the dirt loose from the carpet and whisks it into the airstream where it is then trapped in the HEPA media bag. We call our Direct Air vacuum the Freedom. You'll call it the easiest to use vacuum on the planet!

The Cordless Freedom

Free Range!

Ta-da! We did it! We got rid of the most annoying part of the vacuum - the cord. No more searching for an outlet, no more wishing you had just a few more feet of cord, no more getting tangled in the cord while you crisscross your room to vacuum every nook and cranny. You won't believe the freedom you'll feel using the new Cordless Simplicity Freedom.

Lightweight

While the Freedom weighs less than a gallon of milk - even skim milk - it's worth its weight in gold when it comes to cleaning. From carpets to bare floors, the Cordless Freedom cleans it all - upstairs, downstairs and even on the stairs.

Quiet

Not only is it easy on your back, it's easy on your ears! Someone's watching the big game? The baby's sleeping? Rest easy, the new Cordless Freedom whisks away dust and debris without much more than a whisper.
